Seafood

At night, there are banquet-style entrees; during the day, there’s a great selection of dim sum. Don’t miss the sheng jian bao, rich, broth-filled pork buns that are steamed and then dipped halfway in hot oil, making for a half-crunchy, half-chewy, fully delicious experience.  
—Jason Horn, LA Weekly

**Chang’an**

“Organic” is not a word regularly bantered about in the Asian restaurants of the San Gabriel Valley...But in the land of dumplings and noodles, pork parts and seafood both familiar and obscure, as well as many spices and many herbs, “organic” is not a particularly popular buzzword. But at Green Zone, it isn’t just a buzz, it’s a statement of purpose; a way of life.”  
—Merill Shindler, San Gabriel Valley Tribune

“But unlike the multitude of SGV restaurants that are by and for the Chinese community, these customers are almost entirely young and trendy, and this room — with its long bar and televisions playing hip-hop videos and high tables and booths set with wine glasses — looks as if it could be set in West Hollywood.”
